

1065 alfamix cow

additional mixture with minerals and vitamins. For cows which produce little or nothing; and especially for breeding bulls and cows which have to get inspected

Available packaging:

15.0 kg

Feeding advice

- always give enough grass or roughage
- give some 1065 alfamix cow as a supplement to the minerals, vitamins and fats
- give calves from day 2 or 3 on 130 calf muesli, and also give lucerne hay as soon as the calves want to eat it
- give lactating cows or cattle on which more demands are made 110 cattle pellet extra
- make sure there's always dry bedding and enough fresh drinking water
