- **High-quality chick feed for optimal growth**
- **With protein-rich mini pellets for strong development**
- **Complete blend with grains, seeds and vegetables**

Available packaging:

20.0 kg	**4.0 kg**

Product description

5013 alframix chicks is a high-quality rearing feed for chicks from 3 weeks old. This complete chick feed consists protein-rich mini pellets mixed with chick grain, seeds, and finely broken peas, making it easy for young chickens to consume. This premium feed supports balanced and healthy growth of muscles, bones and organs. Thanks to its carefully ballanced composition, chicks develop optimally into strong laying hens (20-26 weeks). This complete chick feed is ideal for a gradual transition form starter feed (5014 chick starter mash) to chicken feed (for example: 5033 alfamix chickens or 5034 alfamix bantam chickens). It provides a balanced diet and helps chicks develop evenly. This feed is suitable for both hobby keepers and professional poultry farmers.

Feeding advice

- Feed chicks up to 3 weeks old with chick starter mash (5014 chick starter mash).
- From 3 weeks onwards, this chick feed (5013 alfamix chicks) is

suitable until the laying stage.

- After the first egg is laid, switch to chicken feed such as 5033 alfamix chickens or 5034 alfamix bantam chickens.
- Provide fresh feed daily, but not more than the chicks can eat in one day.
- Always ensure sufficient grit is available.
- Provide plenty of fresh drinking water daily.

Composition:

soya dehulled extracted toasted, cut wheat, maize cracked, maize gluten feed, broken peas, barley, dari red, oats peeled, alfalfa, millet yellow, rape seed extracted, millet red, brewer's yeast, shell grit, linseed, rape seed, rice, lecithin, aniseed, soja oil

analytical constituents/kg

crude protein 19,0 %, crude fat 3,4 %, crude fibre 5,7 %, crude ash 6,4 %, calcium 10,82 g, phosphorus 6,75 g, sodium 1,7 g, lysin 9,96 g, methionin 4,15 g

Addition/kg Vitamins

3a672a Vitamin(e) A 9900 IU, 3a671 Vitamin(e) D3 1980 IU, 3a700 Vitamin(e) E 82 mg

Addition/kg Traces

copper (3b413 Cu(II)chelate of glycine hydrate, solid) 13 mg, zinc (3b607 Zn-chelate of glycine hydrate) 47 mg, manganese (3b506 Mn-chelate of glycine hydrate) 94 mg, iron (3b103 Fe(II)sulphate monohydrate) 67 mg, iodine (3b202 calcium iodate anhydrous) 1 mg, selenium (3b812 Se-organic CNCM 1-3399) 0.15 mg
