

5068 guinea pig pellet with vitamin C

complete, fibre-rich pellet with extra vitamin C. Suitable for all guinea pigs

Available packaging:

20.0 kg	4.0 kg

Feeding advice

- always feed guinea pigs straw or hay. They need a lot of extra fibres
- vegetable or fruit supplements can be given, but are not necessary, thanks to the vitamin C in the feed
- give guinea pigs daily fresh feed; about 30 – 45 grams per day per animal
- do not give too much feed, so that the guinea pigs eat their dishes clean. Otherwise they only eat the most tasty bits (selective feeding) and leave the other necessary nutrients behind.
- if the guinea pigs eat too selectively, feed preferably pellets

Composition:

linseed fibers, soya dehulled extracted toasted, maize, barley, beet pulp, carob pods, rape seed extracted, maizemash, linseed expeller, gelatinized maize, apple molasses, palm kernel meal, sunflowerseed black, shell grit, linseed, lecithin
