

703 fancy starterpellet white feathers (2mm)

complete pellet for chicks with white feathers (also for laying white hens, give additional 20% wheat or barley and grit)

Available packaging:

20.0 kg

Feeding advice

- give white birds up to laying 703 breed chick pellet white feathers (2 mm)
- provide sufficient heat and oxygen
- give breeds with difficult initial development 1075 alpha tart spring chicks for 3 weeks
- provide Garvo chick food up to the 10th to 12th week. Then, depending on the breed characteristics, separate hens and cocks and take care of them separately

Composition:

barley, wheat, soya dehulled extracted toasted, rape seed extracted, soja oil, shell grit, brewer's yeast, lecithin
